

Project Name: PEX Recirculated DEIR

Project Number: 07110179.01

Telephone Contact Report

CONFIDENTIAL

Call Participants: Susan Luong

Title: Staff Scientist, OEHHA Proposition
65 Section

Initiated by: Nisha Chauhan, EDAW

Organization: California Office of
Environmental Health Hazard
Assessment

Phone Number: (916) 327-3015

Location: Sacramento, CA

Subject: Carbon black in PEX

Date/Time: October 1, 2008

Discussion
Item(s):

Carbon black in PEX tubing and Proposition 65 compliance.

Carbon black is listed on the Prop 65 list for airborne particles. If exposure to carbon black airborne particles meets the exposure threshold, then a Prop 65 label is required. However, any potential carbon black leaching from plastics is considered bound, and is not listed addressed under Prop 65.

Because any carbon black that could potentially be contained in PEX tubing is considered bound, any potential leaching of carbon black from PEX tubing is not a concern under Proposition 65.
